

Manager Projects, Engineering & Maintenance (PEM)

Do you want to combine Management and technical skills in a responsible, diverse and dynamic role?
Then Manager PEM might be the job for you!

As part of the Management Team you contribute to the strategy, development and growth of EMCM. With your team (7fte) you will have responsibility for all technical- and customer projects within EMCM.

As Manager PEM you will be responsible for:

- Implementing projects, set up project planning and follow up within timelines, quality standards and budget. Projects can be customer projects as well as technical projects concerning purchase, optimization and/or maintenance of equipment, installations and building.
- Facilitating, motivating and developing your team: (7 fte) Project Managers, Project Engineers, Validation Engineer and Maintenance Engineer.
- Budget responsibility for the department and projects.
- Being “a bridge” between customer and Project Managers.
- Controlling the process of validation/qualification of new processes and/or equipment, to make sure all guidelines are met.

We ask:

- Bachelor (or academic/master) degree in Life Science with technical experience and/or education.
- Project Management skills.
- Knowledge of and experience in quality management systems and standards like ISO-9001, ISO-13485, GMP and GDP.
- At least 5 years work experience in a regulated production environment working with processes and equipment.
- At least 3 years' experience in a Leadership position, team player with good communication skills.
- Result driven and a focus on improvement and problem solving.
- Communication in English and Dutch.

We offer:

A responsible job in our internationally active and diverse company, with a positive and social working environment. The salary range for this fulltime (40 hrs/wk) position is €4.269 - €6.959 (gross per month). Complemented with a good set of employee benefits like travel allowance, profit share, employer contribution to your sport membership, training and a beneficial pension plan and additional flexible benefits.
