

Quality Assurance/Release Officer

*Do you have an eye for quality, are you communicatively strong and do you have a passion for the pharmaceutical industry?
Then EMCM is looking for you!*

Your tasks and responsibilities:

- 'Quality point of contact' for our CMO customer related to the product group assigned to you.
- For the specific product group you are responsible for batch review and product release. This includes the review of deviations, change controls, CAPA's and complaints.
- Review of relevant qualification and validation documentation.
- Participate in and support internal and external (customer) audits (on/off site).
- Represent QA in project teams and ensuring that relevant quality criteria are secured at an early stage.
- Contribute to improvement projects and the further development of a LEAN QMS.

We ask:

- Bachelor or Master educational background.
- At least 5 years of relevant work experience in a GMP environment.
- Knowledge of quality systems and relevant regulations including ISO 13485:2016 and MDD/MDR.
- Excellent oral and written skills in Dutch and English language.
- Excellent analytical ability and helicopter view.
- Proactive, pragmatic and good persuasion skills.

We offer:

We offer you a responsible position within a dynamic, versatile and internationally active company. It's a fulltime position (40 hours), 32 or 36 hours can be discussed. You will receive a competitive salary and extra benefits like flexible working times, holiday allowance, profit share, a favorable pension plan and EMCM will contribute in your sport contribution.
