

Controller (0,7 - 1 fte)

Business controlling is the focus area for this position. If you are analytically as well as numerically strong and know how to translate your findings into (strategic) advice to the Board and Management Team, then this is a great role for you. You will also work on challenging cross-departmental improvement projects.

Your responsibilities:

- You are responsible for leading EMC's finance department (2 fte).
- You take care of budgeting, budgets and the annual accounts, and ensure an unqualified opinion from the auditor.
- Taking care of various reports, including monthly reporting.
- You also take care of tax returns, any subsidy applications, etc..
- You advise the Management Team on Finance, liquidity forecasts, cost prices and budgeting.
- Various activities such as debtor monitoring, control of purchase and sales invoices, cash management and invoicing.
- SAP B1 Business Process Expert for the finance module.

A number of projects are planned in which you will be the initiator and specialist: think cost price calculations in SAP and setting up project administration.

You have:

- A Bachelor degree in business administration, economics or similar.
- At least 5 years' work experience in a similar position, in a production environment.
- Experience with ERP systems, preferably SAP B1.
- Good command of English and Dutch.
- Skills inherent to the position, such as accuracy, numerical insight, analytical ability and cost awareness.

We offer:

We offer you a responsible position within a dynamic, versatile and internationally active company. You will be part of a committed and collegial team. You will receive a competitive salary and a complete set of employee benefits like profit-sharing scheme, travel allowance, a favourable pension scheme and flexible working conditions.
